PROFILE

Final-year Computer Science student at Bina Nusantara University and former exchange student at University of Kindai. Specializing in Software Development and Data Science, I have successfully executed end-to-end projects in predictive maintenance (RUL) and spatiotemporal analysis.

EDUCATION

Bina Nusantara University @ Alam Sutera	Tangerang
School of Computer Science	2022 – Now
GPA: 3.85 out of 4.00	

ACADEMIC EXPERIENCE

EXCHANGE STUDENT	Osaka Prefecture
University of Kindai	Sep 2025 – Feb 2026
- Developed a Social Media Sentiment Analysis system using Python to classify public opinion. - Conducted comparative research on cross-cultural music preferences between local and international students using statistical analysis to identify significant behavioral patterns. - Actively volunteered for the 'Something Fun' program, contributing a total of 26.75 hours to facilitate language exchange.	

ORGANIZATIONAL EXPERIENCE

UREEKA BINUS	Remote
Manager of Mobile Programming Division	Feb 2025 – Jul 2025
- Led and managed the Mobile Programming division, ensuring seamless operations across Creative, Competition, and Monitoring roles through biweekly coordination meetings and regular reporting to the Chairman. - Evaluated project submissions for the Refreshment Project under the theme of IT Solutions for Government Programs.	
Research and Development Staff	Aug 2024 – Jan 2025
- Mentored organization members in Frontend development by moderating training sessions and providing technical support. - Develop a full-stack project utilizing Laravel for the backend and React for the frontend, ensuring a seamless integration between the server-side and user interface. - Authored a comprehensive Frontend development booklet as a primary learning resource for organization members.
